This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

TREASURER'S OFFICE,

STATE OF WEST VIRGINIA.

CHARLESTON, October 1, 1886.

His Excellency, E. W. WILSON,
Governor of the State of West Virginia:

DEAR SIR:—I have the honor to transmit herewith a Biennial Report of the transactions of this office for the fiscal years ending respectively on the 30th day of September, 1885, and on the 30th day of September, 1886.

The tables herewith show that at the beginning of the fiscal year 1884–5, there was:

In the treasury the sum of	$ 222,698 74
Receipts from all sources during the year	789,498 89
Total in the treasury during the year	$1,012,197 63
Amount disbursed for all purposes during the year	832,016 43
Balance in treasury October 1, 1885	$ 180,181 20

This balance is made up of the following distinct funds;

State Fund	$ 7,026 06
General School Fund	168,676 89
The School Fund	4,478 25
Total	$180,181 20

At the beginning of the fiscal year 1885–6 there was:

In the treasury the sum of	$ 180,181 20
Receipts from all sources during the year	1,167,514 46
Total in the treasury during the year	$1,347,695 66
Amount disbursed for all purposes during the year	979,693 86
Balance in treasury, October 1, 1886	$368,001 80

Digitized by Google

This balance is made up of the following distinct funds:

State Fund	$ 4,584 58
General School Fund	331,057 46
The School Fund	1,961 70
Public Building Fund	30,398 06
Total	$ 368,001 80
Deduct amount unavailable in Merchants' Bank, Charleston	16,601 07
Available balance in treasury	$ 351,400 73

As heretofore recommended by my predecessor, in his last Biennial Report, (1884), I again ask that some legislation be had "authorizing the Treasurer to make the necessary entries upon the books of his office, disposing of the unavailing balance shown as standing to the credit of the State in the Merchants' Bank of Charleston."

That matter has been finally adjusted, and yet our books show a balance to the credit of the State of $16,601.07, which amount has to be continually carried forward on our books and balance sheets at no little trouble, and still we have no right to drop the same without some authority from the Legislature.

I shall also call your attention to the absolute necessity of the Legislature increasing the clerical force of this office, for it is impossible for one clerk to continue to do the work now imposed upon him, especially during certain seasons of the year. After working hard all day he has to work late at nights in order to keep up, and it invariably requires two persons to balance the books, which is done every month, and requires considerable time, and I have no fund whatever out of which to employ the necessary help.

Of course it is not to be expected that the Treasurer (one of the heads of the Executive department), should constitute himself clerk in his office, in that event it would be impossible for him to always be ready to attend the frequent meetings of the Board of Public Works, and other duties to which he may be called to perform, by virtue of his office, although I have done, and continue to do, considerable work in that line. The necessity of another clerk in this office will be apparent when I call your attention to the increased work recently imposed upon the same. The last Legislature, (1885), created a new fund called the "Public Building Fund," which increased the total number of accounts to be kept by this office one-fifth. The same Legislature also passed another bill taxing the "Certificates of Incorporations," (which is an additional account to be kept) and thereby increasing the work of this office two-thirds (⅔), by way of issuing and keeping a record of receipts of said "Certificates of Incorporations;" besides the natural increase of business flowing from the increase of population, business and wealth of

Digitized by Google

this State—all of which can very readily be perceived if at once thought of; moreover, the Contingent Fund of this office is only three hundred dollars per annum, and when I took charge of it it was entirely without furniture, and therefore I had to and did supply it with what I conceived to be suitable furniture at the cost of six hundred and sixty-two dollars and twenty-five cents, and for which I still owe seventy-eight dollars. And when we moved into the new State House at Charleston all the offices had to be carpeted, and the cost of carpeting this office was three hundred and twenty-five dollars, twenty-five dollars more than my contingent allowance for any one year, saying nothing about the other necessary and absolute expenses of the office which must be paid as incurred. I would therefore ask that the Legislature be requested to make an appropriation to pay for the carpeting of this office, and also increase its Contingent Fund.

Very respectfully, your obedient servant,

W. T. THOMPSON,
State Treasurer.
